## Guidelines required for "Baobab" mosaic design.

1. Draw red lines as shown with a ruler.
2. Carefully transfer the drawing onto the board using the lines as a guide. Note where the black intersects the red
3. Trace over with a felt pen if you like.

## Alternative methods of transferring the design

The drawing below could be taken to a photocopy or print shop and enlarged to your desired size. You can then use carbon paper to trace the design directly onto your backing board.
