## Guidelines required for "Hearts & Flowers" mosaic design.

1. Draw red lines as shown with a protractor & a compass
2. Carefully cut your templates out with scissors or a stanley knife. Cut *outside* the lines edging the template.
3. Join the templates together with sticky tape or glue
4. Line up the template on the guidelines as shown

## Alternative methods of transferring the design

The drawing below could be taken to a photocopy or print shop and enlarged to your desired size. You can then use carbon paper to trace the design directly onto your backing board.

You could also draw a grid on the design and a corresponding grid onto your backing board and draw the lines in yourself
