Guidelines required for "Om" mosaic design.

1. Draw lines as shown with a ruler & a compass
2. Carefully cut your templates out (cardboard page) with scissors or a stanley knife. Cut *outside* the lines edging the template.
3. Line up the template on the guideline as shown, tracing around it carefully.

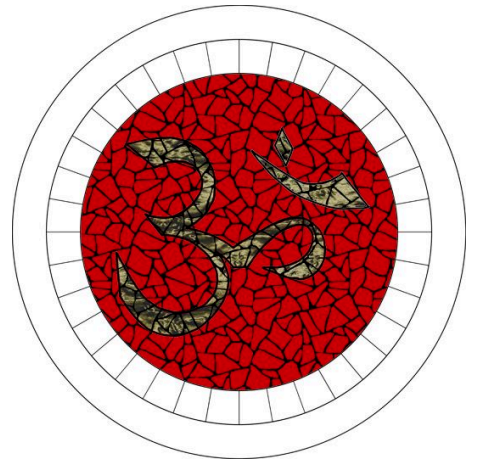

Alternative methods of transferring the design

The drawing below could be taken to a photocopy or print shop and enlarged to your desired size. You can then use carbon paper to trace the design directly onto your backing board.

You could also draw a grid on the design and a corresponding grid onto your backing board and draw the lines in yourself
